

# Nutrislice Tips

## How to choose your language

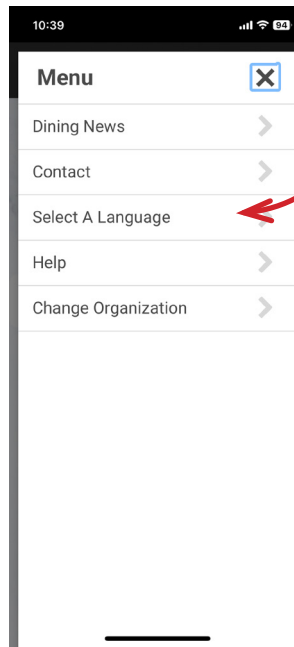

In Nutrislice, you can choose the language in which you view our menus. The list of languages was created through consultation with the Office of International Education. If there is a language you would like to use that is not currently available, please email [kmckinney@richmond.edu](mailto:kmckinney@richmond.edu).

## In the Nutrislice App

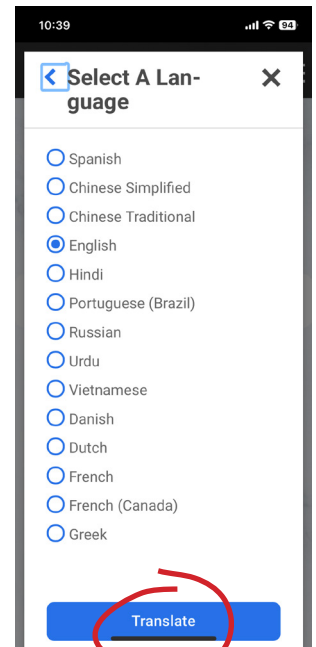

Click on the hamburger menu in the upper right corner of the screen.

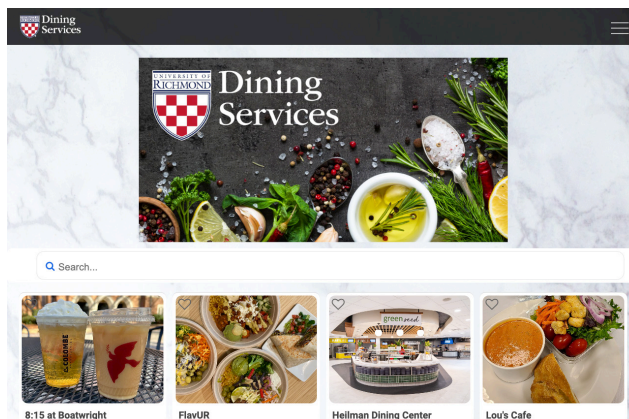

Click on Select A Language.

Choose your language and click Translate.

## On the website

Click on the hamburger menu in the upper right corner of the screen and follow the steps above.

Your language selection will stay the same each time you open the app or website until you change it.
